

Jason Hill Corporate Engineering Manager

Jason Hill serves as Rug Doctor's Corporate Engineering Manager and leads the engineering department through new product development, cost reduction programs and production support efforts.

Before joining Rug Doctor, Hill gained experience by working as an engineer at True Fitness, Emerson Tool Company, Boeing Corporation and Moog Automotive.

Hill holds a Bachelor of Science degree in Mechanical Engineering and has engineered several critically-acclaimed products throughout his career.

Hill's favorite Rug Doctor product is the new Mighty Pro X3 machine.
